

# MPQ1000 ACCESSORIES

## 1000A Wide Split Core Current Clamp - CP-1000WCE-ID

Operates with the MPQ Series & PA9 Series Instruments  
MPQ series auto identifies CT range. Inner ID = 5.08cm (2")

## 600ADC Current Clamp - CP-600DC-ID

Measures both AC and DC current. Ideal for solar applications. Operates with the MPQ Series & PA9 Series Instruments. MPQ series auto identifies CT range.  
Inner ID = 5.08cm (2")

## Earth Lead - 2008-101

Safety earth lead for grounding the instrument to earth.  
Operates with the MPQ Series Instruments.

## Set of 3 Plunger Clips

Easy connection even in tight locations. Don't risk alligator clips falling off. Operates with the MPQ Series & PA9 Series Instruments.

## Set of 3 Fused Lead Adapters - 1008-645

These inline fuse adapters simply connect to the end of your voltage leads. Protect your valuable assets. Operates with the MPQ Series Instruments.

## In Line Fuses - 90020-560

0.8 Amp fast blow fuse for the 90017-088 fused adapter. Operates with the MPQ Series instrument.

## MPQ1000 Strap - 2009-205

This 2 piece strap allows the MPQ1000 to be hung in any location. Simply attached one side to the battery door of the MPQ1000. The other side can wrap around any pipe or beam then simply click both sides together. Keep the MPQ1000 safe and out of the way during a recording.

## Carry Bags - 2007-626-1

Carry Bag for MPQ2000. Enough room for the MPQ2000, all the accessories a full set of current clamps and tools.

# MPQ1000 ACCESSORIES

## 4 Range Auto Identifying Flex - **CT-MCCV6000-18 or MCCV6000-27**

No batteries required, powered by instrument. Operates with the MPQ Series & PA9 Series Instruments. MPQ series auto identify the ranges up to 6000A.  
"-18" - Inner ID = 18cm (7") "-27" - Inner ID = 27cm (10.6")

## Split Core Current Clamp – **CP-5CE-ID, CP-20CE-ID & CP-100CE-ID**

Ideal for measuring neutral Current. Operates with the MPQ Series & PA9 Series Instruments. MPQ series auto identifies CT range.

Inner ID = 1.98cm (0.78") Range: "5CE" = 5A, "20CE" = 20A & "100CE" = 100A

## Shunt Adapter – **CPA9-1 & CPA9-5**

Adapts CT's with banana jack leads and a current output to operate with the MPQ Series and the PA9 Series instruments. The probes will NOT be self-identifying using this adapter.

Range: "CPA9-1" = 1A & "CPA9-5" = 5A

## Power Quality Simulator – **MPQ-SIM-01**

Ideal for training personnel on power quality issues. Powered off a single phase 12V AC adapter and creates a 3 phase source. Create dips, swells, transients, phase shifts, harmonics and power reversals. Teach power and energy, power quality as well as power factor. Operates with the MPQ Series & PA9 Series Instruments

## MPQ1000 Lead Set – **2007-259**

Voltage lead set for the MPQ1000. Includes 5 voltage leads, 5 Crocodile Clips, 1 earth lead and color markers to customize the leads to your color code.

## MPQ1000 Power Adapter - **90011-992**

Used for powering the MPQ1000 instrument from either 120V 60Hz or 230V 50Hz standard outlets. Supports US, EU, UK and Australian outlets.

## Internal Battery Pack – **2008-369**

Internal NiMH battery for the MPQ Series instrument.

## Single Phase Cord

**Cord for US Outlets = CA-PA9A**  
**Cord for UK Outlets = CA-PA9B**  
**Cord for EU Outlets = CA-PA9E**

Allows for simple and easy measurement of single phase. Just connect to the instrument and plug into a standard outlet. Operates with the MPQ Series & PA9 Series Instruments.
