

## Content of delivery

**1 x Compact AFM system**

**1 x USB cable**

**1 x Mains cable (for power supply)**

**1 x Power supply.**

**1 x Compact AFM Tool set:**

- 1 x Cantilever tweezers
- 1 x Cantilever insertion tool (usually mounted in the DropStop)
- 1 x DropStop.

**1 x Collection of 6 Samples:** Nanotubes, CD Stamper, Chip structure, Skin cross section, Micro-structure, Staphylococcus Bacteria

**1 x Collection of 8 Cantilevers**

- 4 x 190TapAl G (Dynamic Force Mode)
- 4 x CONTR (Static Force Mode)

**4 x Spare sample holder for own samples**

**1 x Compact AFM Installation CD**

**1 x Compact AFM Operating Instructions manual incl. 5 experimental guides:**

- P2538000 Basic imaging methods
- P2538100 Basic force spectroscopy
- P2538200 Material contrast
- P2538400 Imaging biological and medica samples
- P2538500 Imaging magnetic nano structures (MFM)

**1 x Instrument case and padding**
