

The next generation of Roots pumps.

Intelligent, high-performance Roots pumps for low and medium vacuum applications.

The next generation of Roots pumps.

Intelligent, high-performance Roots pumps for low and medium vacuum applications.

Perfectly adjustable The Roots pumps in the innovative HiLobe series offer a broad

range of pumping speeds and application possibilities. With their individually adjustable speeds, they can be perfectly matched to customer specifications. In general, Roots pumps need a backing pump adjusted to the gas flow which is suitable for the application in order to operate. Their flexible

mounting position reduces installation costs.

High performance The superior drive concept of the HiLobe pumps can shorten

the pump-down times by about 20% compared to conventional Roots pumps, especially for rapid evacuations. The pumps are hermetically sealed to the atmosphere and provide a maximum integral leakage rate of $1 \cdot 10^{-6}$ Pa m³/s.

Low operating costs The HiLobe series offers the lowest operating costs with the

most uptime because only motors in efficiency class IE4 and optimized rotor geometries are used. Using purge gas is unnecessary in most cases due to the seal concept, which in turn lowers operating costs even more. The well-thought out air cooling concept also eliminates cost-intensive water

cooling.

IntelligentThe intelligent interface technology of the HiLobe allows optimal adjustment and monitoring of processes. The

intelligent condition monitoring also guarantees a long

service life and top operating safety.

Applications

Electron beam welding

Leak detection

Metallurgy

Coating

Customer benefits

Freeze drying

- Pumping speed range, depending on version, from 520 –2,100 m³/h because of variable rotation speed control
- Shortest pump-down times due to superior, next-generation drive concept
- Intelligent interface technology allows process adjustment and condition monitoring (Industry 4.0)
- Hermetically sealed pump with leak rate of < 1·10⁻⁶ Pa m³/s as dynamic seals to the outside are eliminated
- Low operating costs because of state-of-the-art air cooling up to +40 °C and motor technology (IE4 Standard)
- Long service life and top operating safety thanks to intelligent condition monitoring and innovative rotor/motor concept

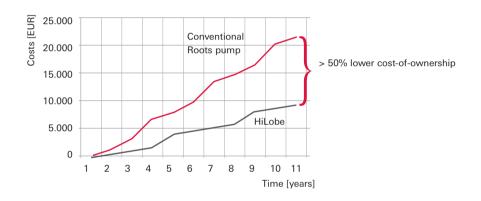

The next generation of Roots pumps.

Intelligent, high-performance Roots pumps for low and medium vacuum applications.

The innovative drive

The new, integrated and wear-free drive of the HiLobe series is hermetically sealed. The energy-efficiency-class IE4 motor also reduces operating costs.

Comparison of costs for maintenance and energy

Flexible air cooling

The HiLobe's individual temperature control allows the air cooling to be flexibly controlled which guarantees optimal adjustment of the pump temperature for the processes.

Comparison of versions

	Integrated air cooling and frequency converter	Frequency converter and connection cable included in delivery	Low space require- ments	Pumping speed
HiLobe 1001/1301/2101 (with housing)				up to 2100 m ³ /h
HiLobe 1002/1302 (without housing)		•	•	up to 1300 m ³ /h

Hermetically sealed with integrated motor (IPM – internal permanent magnet)

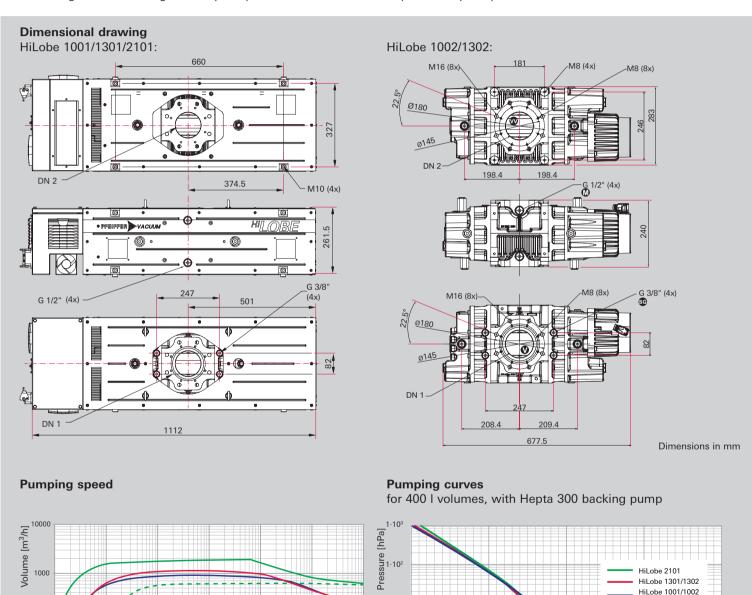

Individual mounting options

HiLobe 1001H/1301H/2101H in horizontal mounting position, with integrated air cooling and frequency converter

HiLobe 1002/1302 without housing with convection cooling, separate frequency converter and connection cable

P3, mineral oil, 20 l PK 001 108 -T	P3, mineral oil, 5 l	PK 001 107 -T
	P3, mineral oil, 20 I	PK 001 108 -T

VACUUM SOLUTIONS FROM A SINGLE SOURCE

Pfeiffer Vacuum stands for innovative and custom vacuum solutions worldwide, technological perfection, competent advice and reliable service.

COMPLETE RANGE OF PRODUCTS

From a single component to complex systems:

We are the only supplier of vacuum technology that provides a complete product portfolio.

COMPETENCE IN THEORY AND PRACTICE

Benefit from our know-how and our portfolio of training opportunities!
We support you with your plant layout and provide first-class on-site service worldwide.

Are you looking for a perfect vacuum solution? Please contact us:

Pfeiffer Vacuum GmbH Headquarters · Germany T +49 6441 802-0
